

CREAM CITY FOUNDATION

**LGBTQ+ Health Conference Preliminary Agenda**  
**Friday, January 25, 2019 | Milwaukee Marriott Downtown**

**2019 LGBTQ+ Health Conference Vision Statement:**

A core Cream City Foundation obligation to the communities we serve is convening diverse stakeholders and change-makers for robust learning and engagement, to inform and inspire change. Our ultimate goals are to generate shared knowledge and understanding about LGBTQ+ issues and communities, and support long-lasting, creative partnerships for making Milwaukee and the region a healthier and more equitable place.

This conference serves as catalyst for greater access, quality and equity in the design and delivery of healthcare for LGBTQ+ populations in our region. It is an initial response to our LGBTQ+ communities' expressed priorities and needs, as revealed in recent assessments. By the end of this conference, participants will (1) be better equipped to assure and/or provide competent, quality care to our LGBTQ+ communities; and (2) work more collaboratively to address key health challenges facing LGBTQ+ communities, including persistent disparities.
